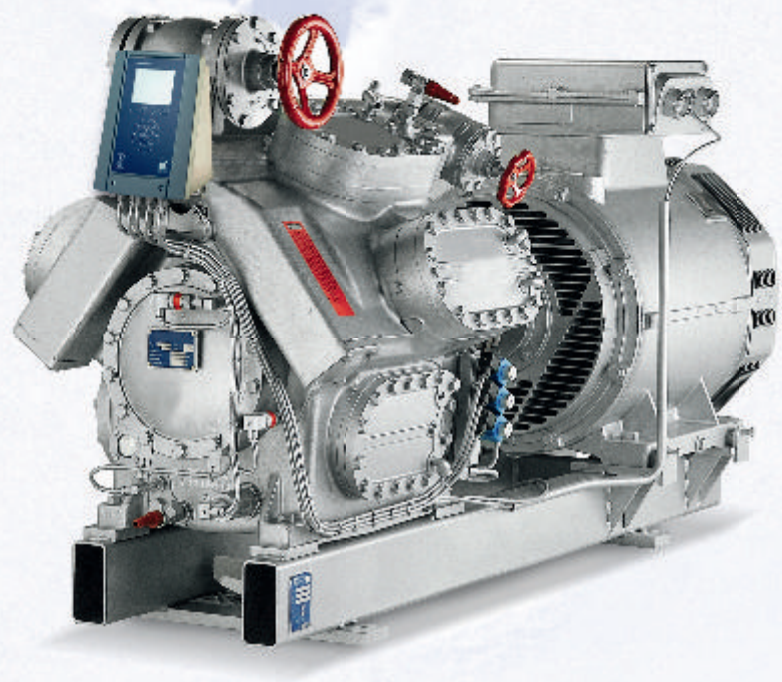
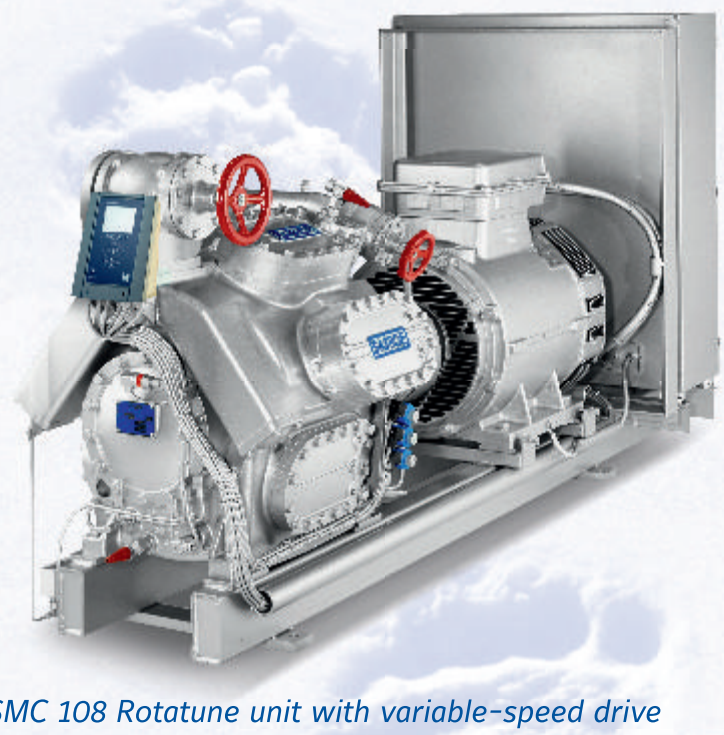
Sabroe reciprocating compressors

CMO 26 reciprocating compressor unit



SMC 108 reciprocating compressor unit

HPC 108 S reciprocating compressor for high-pressure refrigerants (ammonia, CO_2, R410A)



SMC 108 Rotatune unit with variable-speed drive

Compressor range	Covers capacities between 60 and 1400 m^3/h (single and two-stage)
Operating	High coefficent of performance (COP), with excellent part load characteristics
Applications	Refrigeration, air-conditioning and heat pump operation in even the toughest industrial, marine and offshore applications.
